# THE MARYLAND GAZETTE,

Containing the latest Advices foreign and domestic.

THURSDAY, May 7, 1761.

M A D R I D, January 15.  
N the 8th Instant the King signed an Order  
for fitting out fifty Ships of War and Frigates,  
ready to put to Sea by the 4th of March.  
This Order, and the Convention signed by  
our Court and those of London and Turin,  
occasion much Speculation. Mr. Wall and  
M. de Squillac, the two Secretaries of State, are ordered to  
ex their Residence at Madrid. Some new Regulations are  
in the Carpet for excluding all foreign Nations from the  
South-America Trade.

Naples, Jan. 20. Orders are issued from the War-Office  
for raising 4000 Recruits, for completing all our Regiments.  
Paris, Feb. 6. They are actually coining at our Mint  
thirty Millions of Pistres, which Spain has sent hither for  
the Support of the present War. Besides the powerful Ar-  
mies we shall have this Year in Germany, our remaining  
Naval Force may possibly put to Sea: We have still thirty  
ships of the Line in our Ports, and they talk at Court of  
sending them in the Spring.

Paris, Feb. 13. The King has created Lieutenant-Gen-  
eral of his Forces, the Chevalier de Levy, who commanded  
last Year in Canada, under the Marquis de Vaudreuil, and  
as also promoted several other Officers who behaved well in  
that Country.

From the Head-Quarters of Prince Ferdinand of Brunswick,  
Feb. 9. The French attacked both Ends of our Line the  
6th and 27th of January last; Prince Xavier made his At-  
tack upon the Prussian Quarter at Sonderhausen on our Left,  
and carried off Part of Wunfch's Battalion; but General  
Luckner coming up with four Battalions and fifteen Squa-  
rons, found the Enemy upon the Retreat, and pursued them  
beyond Langensalte, seized one of their Magazines at Dais-  
nitz, and took Prisoners two Officers and thirty Men who  
were posted there.

M. de St. Victor attacked our Post at Stadburgen, where  
part of a Battalion of the British Legion was surprised, and  
lost 180 Men. The Commandant who preferred Death  
to the Disgrace of being surprised, was killed in his Bed-  
chamber. As we have but little Cavalry upon the Dymel,  
M. de St. Victor's Corps retreated without being pursued,  
specially as General Bock who commanded at Ruden, was  
at that Time attacked by M. de Mearpeon, who was also  
repulsed.

It is computed that the French employed in that Expedi-  
tion at least 30,000 Men in this bad Season, while our Ar-  
my enjoyed a perfect Repose. It seems as if Marshal Brog-  
lio had a Mind to close the Campaign with that fatiguing  
expedition.

Our Army is on the Point of entering again into Hesse,  
and we shall do our utmost, with the Assistance of Heaven,  
to relieve that unhappy Country.

Naples, Jan. 20. The 8th Instant, at Night, Mount  
Steuus began to throw up in the Air, with uncommon  
violence, Trees, Stones, and bituminous Matter. In the  
morning of the 9th this Eruption ceased. On the 12th a  
very terrible Noise proceeded from the Mountain, and soon  
after it was discovered, that the whole Top was fallen in.  
At present it sends out neither Lava, Fire, nor Smoke;  
and instead of a Vulcano, one would take it for a cultivated  
hill. The Owners of the Lands on it are labouring there  
with the same Uncertainty as if there never had been any  
eruption; yet the Damage caused by the last amounts to a  
million of Ducats. The Proprietors of the Lands on it pro-  
pose to raise a Fund to indemnify such as shall hereafter suffer  
by Eruptions. They reckon that the cultivated Lands ac-  
count to 200,000 square Toises; and they compute that  
twenty Sous yearly for each Toise will be sufficient. This  
matter is at present before the Ministry.

L O N D O N, February 14.  
Twenty-seven Ships have arrived in the Ports of Scotland,  
from Virginia and Maryland, in the last three Months.  
What is remarkable, the same Number of Ships, from Vir-  
ginia and Maryland, bound to the Port of London, in the  
same Space of Time, have been taken by the Enemy.

We hear that his Majesty will be enthron'd at Windsor,  
on St. George's Day, in the Stall of his Grandfather; and  
that Prince William will be installed a Knight of the Garter  
at the same Time.

Orders are given for buying up 2000 Horses, to remount  
the Cavalry in the allied Army in Germany.  
We hear that twenty new Highland Companies, of 100  
Men each, are raising in Scotland.

The Hon. Commodore Keppel is to command the Expe-  
dition now concerted, and is to hoist his Broad Pendant on  
board his Majesty's Ship Valiant, now getting ready at  
Portsmouth for that Purpose; and Adam Duncan, Esq; is  
appointed the Commodore's Captain.

'Tis now assured, that as the War is like to continue,  
an Augmentation of the Three Regiments of Foot Guards  
will be made with 2000 Men each, besides 900 additional  
Marines; with several marching Regiments, for our better  
Security against the French, &c.

The last Letters from Madrid say, that the King of Spain  
had ordered his Land Forces to be augmented with 12000  
Men; and the Spanish Navy to be complete, and ready to  
put to Sea in the Month of April next.

Some Vessels will shortly sail for the Island of Jamaica,  
with warlike Stores, Recruits, and a Draught of Men from  
some Marching Regiments.

The Collections made on the Fast Day at the Rev. Mr.  
Whitefield's Tabernacle, and the Chapel in Tottenham-  
Court, for the Sufferers by the late terrible Fire in Boston  
in New-England, and the plunder'd Protestants in the New-  
Marche of Brandenburg, &c. amounted to upwards of Five  
Hundred and Fifty Pounds.

Feb. 17. Last Sunday arrived in the Downs his Majesty's  
Ship Arethusa, Capt. Vane, and has taken and brought in  
with him a French Cutter Privateer of Calais, having eight  
Carriage Guns and 45 Men.

The Niger Frigate, Capt. Fitzherbert, has brought into  
Plymouth, the Count de Artois Privateer, of Dunkirk, of  
16 Guns, and 120 Men.

Feb. 18. An Express which arrived last Monday by a  
Scheveling Fishing Vessel, has brought Advice of the Death  
of Clement Augustus of Bavaria, Uncle to the Elector of  
Bavaria, born August 16, 1700, Bishop of Munster and Pa-  
derborn 1719, Elector and Archbishop of Cologne Nov. 12,  
1723, Bishop of Hildesheim Feb. 3, 1724, Bishop of Of-  
snabrug Nov. 4, 1728, and Grand Master of the Teutonic  
Order 1732.

The Bishoprick of Osnabrug is alternately held by Roman  
Catholics and Protestants, and one of the Royal Family of  
England will now succeed to it.

The Betsey, Cain, from North-Carolina, last from Vir-  
ginia, to London, is taken and carried into St. Maloes.

Feb. 20. According to a moderate Calculation, the late  
Elector of Cologne was able to maintain and pay, as Elector  
6000 Troops, as Bishop of Munster 8000, as Bishop of Pa-  
derborn 5000, and as Bishop of Osnabrug 2500.

Feb. 21. The Guerrier Privateer took on the 16th of  
January, a Brig, with Pitch and Skins from New-York,  
bound to London.

Advice is said to be received from Germany, that a Body  
of 8000 Austrian Troops was so surrounded, that they must  
certainly be cut off, or surrender themselves Prisoners.

The Government has contracted for 20,000 Tons more of  
Shipping for the Transport Service.

The Report that has been propagated for several Days past,  
of a Peace being on the Carpet, is without Foundation.

Letters Yesterday by the Groyne Mail brought an Account,  
that two French East-India Ships (one from China) were  
arrived there in 110 Days from the Isle of Bourbon. They  
were several Days on the Coast, had buried many of their  
People, and the rest were so sickly, that an English Frigate  
might have taken them both.

Feb. 23. It is said there is Advice that the King of  
Prussia has concluded a Treaty of Peace with the King of  
Sweden.

Letters from Saxony represent the Prussian Army as upon  
a very formidable Footing, and say, that since the Com-  
mencement of the War they have not seen such prodigious  
Magazines as are now forming there.

Letters from Hamburg advise, that five Battalions and  
five Squadrons of Mecklenburg Troops are entered into the  
Service of Great-Britain.

Last Friday seventy Transports were taken up for the Use  
of the Government.

We hear that Orders are given for a Draught of 500 Men  
to be made out of the three Regiments of Foot-Guards, and  
that they may be ready to march at a short Notice, in order  
to embark for Germany.

On Friday was tried in the Court of Common Pleas in  
Westminster-Hall, by a Special Jury, a very-extraordinary  
Cause, in which a Lady was Defendant, on an Action to  
recover the Penalty of 20 l. for having refused, and wilfully  
neglected to be at Church one whole Month, according to  
an Act of Queen Elizabeth, whereby even the Papists, if  
called upon, must prove they have been at some Church or  
Chapel tolerated by Law within one Month, or they are  
liable, if above the Age of Sixteen, to pay the Penalty.  
The Jury found for the Defendant, as there was Evidence to  
prove that she was in a bad State of Health.

Lady Clinton, Maid of Honour to the Queens of King  
Charles II. and James II. of England, died lately at Bou-  
logne in France, aged 103.

February 25. A Person of great Distinction is expected  
from the Court of Russia, in order to propose some Measures  
for bringing about a good Understanding between that Court  
and the King of Prussia.

The Halifax Packet-Boat, Capt. Balderston, which arrived  
at Dartmouth with the Mail from New-York, in her Pas-  
sage fell in with four French Privateers, but got clear from  
them after some Hours Chase. The next Day she fell in  
with two more, one of which ordered her to bring to, and  
fired several Times at her; but being only within random  
Shot, she received no Damage; and tho' they chased her se-  
veral Hours, yet she happily escaped them. Soon after she  
met with two more Ships, which proved to be English Fri-  
gates; and having acquainted the Captains with what had  
happened, they immediately went in Pursuit of the Private-  
ers.

Extract of a Letter from Portsmouth, Feb. 17.

"Our Expeditions are carried on with the utmost Vigour;  
and every Thing for putting them in Execution, will be re-  
ady very speedily."

Bath, Feb. 6. Last Thursday Evening died, aged Eighty-  
eight, at his House in St. John's Court in this City, Richard  
Nash, Esq; a Gentleman in the Course of his Life universally  
known, and deservedly respected.

We are credibly assured, that the Astronomers throughout all  
Europe are preparing to exert their utmost Skill, in observing the  
Transit of Venus over the Sun, the 6th of next June; and that  
on Account of the Uncertainty of the Weather, or the Sun's being  
under the Horizon, whereby the Beginning or End of the Tran-  
sit may not be visible, several ingenious Methods have been pro-  
posed, to secure the Advantages of this Phenomenon, as the like  
has never been properly observed, and will not happen again for  
many Years. Mr. Dunn has proposed the ascertaining the Ap-  
proach of the Planet to such principal Spots as are on the Sun  
at that Time, and also the Beginning and End from the Mean  
of a Number of Observations whilst the Planet is on the Sun's  
Disk. The Longitude of the Place of Observation to be inferred  
from the Mean of a sufficient Number of Emissions and Occul-  
tations of Jupiter's Satellites.

Whitehall, February 24. This Day an Express arrived at  
the Earl of Holdernesse's Office, with Letters of the 21st In-  
stant, from the Hon. Major-General Yorke, his Majesty's  
Minister Plenipotentiary at the Hague, with the following  
Account that had been received there of the Operations of  
his Majesty's Army in Hesse, dated the 16th Instant from  
Niedenstein, the Head-Quarters of his Serene Highness Prince  
Ferdinand of Brunswick.

The Army being assembled on the 9th Instant, at their  
different Points of Rendezvous, on the Dymel, the Rhume,  
and in Sauerland, Prince Ferdinand went the same Day to  
Geismar, where Lieutenant-General Giffac had marched  
with the Corps under his Orders. The next Day the Troops  
halted, and the Dispositions for the Motion of the Whole  
were communicated to the Generals.

The Army marched off on the 11th in four Columns by  
Way of Warbourg, Liebenau, Sielen and Dringelburg, and  
advanced towards Cassel on the Side of West Uffeln. Each  
Column was preceded by a Van-Guard composed of the  
Piquets, which were formed into Battalions and Squadrons,  
for securing the Head of our Cantonnements; that under  
Lieutenant-General Giffac was pushed on as far as Kalle.  
The Hereditary Prince marched by the Road of Stadbergen  
for Mengershausen; and Lieutenant-General Breidenbach  
went from Brilon to Sand: At Casselberg he took 200 Pri-  
soners; General Sporcken, with Kilmansegge's and Wan-  
genheim's Corps united, was advanced by the Way of Du-  
derstadt and Heiligenstadt, as far as Dingelst., where he  
arrived on the 10th; since which Time there have been no  
Accounts from him.

The Army began again its March on the 12th, in the  
same Order as they had done the Day before, and arrived  
in the Neighbourhood of Zierenberg. Lieutenant-General  
Giffac marched to Deurenberg; and the Vanguard or Piquets  
of the four Columns being rejoined and augmented with some  
Cavalry, the Marquis of Granby was appointed to command  
that Corps, and fixed it at Ehlen, from whence he sent De-  
tachments to the Cascade and to Weissenstein. The Heredi-  
tary Prince cantoned his Corps about Zuschen; and receiving  
Advice that the Garrison of Fritzlar was not prepared for an  
Attack, he went thither with a few Battalions, in Hopes of  
being able to carry that Place at once. He attacked it with  
great Spirit, but the Enemy defending it resolutely, and  
taking all Advantages their Situation afforded them, the  
Hereditary Prince thought it advisable to desist from the  
Attempt, and to wait for the Arrival of some Cannon to re-  
duce it. Lieut. Gen. Breidenbach marched to Munchausen.

On the 13th the Army came, and cantoned in the Neigh-  
bourhood of Niedenstein. The Corps under the Marquis of  
Granby march'd to Kirchberg and Metze, that of Lieut.  
Gen. Giffac remained in their former Position. The Heredi-  
tary Prince cantoned his Troops about Hademar, not far  
from Fritzlar. Lieut. Gen. Breidenbach took Possession of  
a Magazine of 40,000 Rations at Rosenthal, and advanced  
towards Marburg. The Attempt he made upon that Town  
did not succeed, the Enemy being upon their Guard. He  
himself was even killed in the Attack; and the Loss of that  
excellent General is much lamented. General d'Okeim has  
been appointed to that Command.

On the 14th the Army halted, and the Hereditary Prince  
detached Major General Zastrow to Feltzberg, and order'd  
a Part of the Cavalry to pass the Eder. An Attempt was  
made to intimidate the Garrison of Fritzlar, by firing some  
Cannon Shot, but to no Purpose. In the mean while, my  
Lord Granby made some Demonstrations towards Guderberg,  
the Garrison of which, consisting of 200 Men, retired into  
the old Castle there; and in the Village, when enter'd,  
were found some Provisions and Forage.

Yesterday Morning some Bombs having been thrown into  
the Town of Fritzlar, Colonel De Narbonne offered to capi-  
tulate, if the most honourable Terms were allowed him.  
Answer was returned him, that such should be granted him,  
in Consideration of his brave Defence, upon Condition how-  
ever, that the Garrison should not serve during the present  
Campaign; and that the Battalions of Waldeck and Wil-  
dungen should be included in the Capitulation. The Com-  
mandant having refused to subscribe to that Condition, a  
brisk Cannonade was begun again, and continued for Half  
an Hour, after which the Terms were accepted.

Yesterday Afternoon the Enemy attacked the Post of  
Gentsungen near Feltzberg, but were repulsed with the Loss  
of two Officers and twenty Soldiers. A Magazine was found  
at Fritzlar; but the Strength of the Garrison is not at present  
ascertained.
